

# Ivan Montero

(425) 496-3342 | ivanspmontero@gmail.com | www.ivamon.com

## Education

### University of Washington

M.Sc. COMPUTER SCIENCE

- GPA: 4.00
- Advisor: Noah A. Smith

Seattle, WA

Sept. 2021 - June 2022

### University of Washington

B.Sc. COMPUTER SCIENCE

- GPA: 3.90
- Advisor: Noah A. Smith

Seattle, WA

Sept. 2017 - June 2021

## Publications

**Ivan Montero**, Nikolaos Pappas, Noah A. Smith, "Sentence Bottleneck Autoencoders from Transformer Language Models", In *Proceedings of the 2021 Conference on Empirical Methods in Natural Language Processing (EMNLP)*, 2021. Oral presentation. URL <https://aclanthology.org/2021.emnlp-main.137/>

**Ivan Montero**, Shayne Longpre, Ni Lao, Andrew J. Frank, Christopher DuBois, "Pivot Through English: Reliably Answering Multilingual Questions without Document Retrieval", Under Review, 2020. URL <https://arxiv.org/abs/2012.14094/>

Florian Mai, Nikolaos Pappas, **Ivan Montero**, Noah A. Smith, James Henderson, "Plug and Play Autoencoders for Conditional Text Generation", In *Proceedings of the 2020 Conference on Empirical Methods in Natural Language Processing (EMNLP)*, 2020. URL <https://www.aclweb.org/anthology/2020.emnlp-main.491/>

## Professional Experience

June 2021 - Sept. 2021 **Research Intern, APPLE**

Open-domain question answering improvements through document-level representation learning.

Sept. 2020 - Dec. 2020 **Software Engineering Intern, FACEBOOK**

Image understanding improvements to Photo Search on the Visual Search Relevance team.

June 2020 - Sept. 2020 **Software Engineering Intern, GOOGLE**

Embedding retrieval optimizations on the Machine Learning Google Research team.

March 2020 - June 2020 **Research Intern, APPLE**

Pivot Through English: Reliably Answering Multilingual Questions without Document Retrieval

Sept. 2019 - March 2020 **Teaching Assistant, UNIVERSITY OF WASHINGTON**

Machine Learning (2x), Deep Learning, Natural Language Processing, and Computer Vision

June 2019 - Sept. 2019 **Software Engineering Intern, GOOGLE**

Street View Billboard Detection And Physical Metric Inference on the Ads team.

June 2018 - Sept. 2018 **Engineering Practicum Intern, GOOGLE**

Image Clustering Pipeline design/implementation on Image Understanding Google Research.

## Teaching Experience

Spring 2022 **Computer Vision**, Teaching Assistant

Winter 2022 **Natural Language Processing**, Teaching Assistant

Autumn 2021 **Deep Learning**, Teaching Assistant

Winter 2020 **Machine Learning**, Teaching Assistant

Autumn 2019 **Machine Learning**, Teaching Assistant

Spring 2019 **Software Design and Implementation**, Teaching Assistant

## Research Experience

---

### University of Washington – Noah’s ARK

ADVISOR: NOAH SMITH, MENTORS: NIKOLAOS PAPPAS (2019-2021), HAO PENG & JUNGO KASAI (2021)

Seattle, WA

Aug. 2019 - Present

- **Efficient Attention Distillation** (2021)  
We modify the knowledge distillation framework, which learns a smaller student model from a larger teacher that achieves the same performance, to experiment with efficient linear attention variants in the student by explicitly matching the standard quadratic attention distribution of the teacher.
- **Multilingual Embeddings from Monolingual Pretrained Transformers** (2021)  
Explore using a fixed English BERT model with a new trainable embedding table to perform masked language modeling in a non-English language, and explore the extents of English representation transferability to other languages
- **Sentence Bottleneck Autoencoders from Transformer Language Models** (2021)  
Explore the construction of a sentence-level autoencoder from a pretrained, frozen transformer language model. The sentence representations discovered by our model achieve better quality than previous methods that extract representations from pretrained transformers on single-sentence similarity, generation, and classification tasks.
- **Sequence Generation with Learnable Continuous Outputs** (2020)  
Explore a sequence generation model with learnable target continuous outputs which leverages a word autoencoder to avoid the computationally expensive softmax prediction layer.
- **Plug and Play Autoencoders for Conditional Text Generation** (2020)  
Explore a sequence-to-sequence framework that learns a task-specific continuous mapping between the latent representations of sequence autoencoders. Our pre-training of autoencoders reduces transfer learning for other NLP tasks to simply learning a continuous translation, leading to up to four times faster evaluation and more parameter-efficient training.

### Apple – Siri Web Answers

ADVISOR: CHRIS DUBOIS, MENTORS: SHAYNE LONGPRE (2020), NI LAO (2021)

Seattle, WA

Aug. 2019 - Sept. 2021

- **Unsupervised Representation Learning for Web-Scale Document Retrieval** (2021)  
Open-Domain Question Answering improvements through document-level representation learning. Explored phrase-level and contextualized exact methods to improve semantic retrieval.
- **Pivot Through English: Reliably Answering Multilingual Questions without Document Retrieval** (2020)  
Perform research experiments on the most effective, unified manner to reliably transfer knowledge from English question answering systems to lower resource languages by leveraging multilingual paraphrase detection.

### Seattle Children’s Research Institute

ADVISOR: PETER J. MYLER, MENTOR: AAKASH SUR

Seattle, WA

Sept. 2018 - May 2020

- **Recognizing Base J from Single Molecule Real Time (SMRT) Sequencing** (2018)  
Explore machine learning and signal processing methods to construct a genome-wide mapping of modified bases in infectious organisms from polymerase pauses during sequencing. Presented at the UW’s 22nd Annual Undergraduate Research Symposium.

## Awards, Fellowships, & Grants

---

2020 **John and JoAnne Wisniewski Endowed Scholarship**, University of Washington

2019 **Microsoft Endowed Scholarship**, Microsoft

2018 **Washington State Opportunity Scholarship**, WSOS

2017 **Paul G. Allen School Direct Admission**, University of Washington  
**Edward Jones Maple Valley Scholarship**, Edward Jones  
**Public School Employee Union Scholarship**, Tahoma School District

## Service

---

2019 **UW Research Computing Club**, Undergraduate Liaison

Seattle, WA

2018 **UW HCDE Alternative Spring Break**, Instructor

Neah Bay, WA

2017 **Washington Trails Association**, Trail Maintenance Volunteer

Seattle, WA

## Miscellaneous

---

- **Languages:** Native proficiency in English. Limited working proficiency in Chinese and Spanish.
